## YOUTH LEAD Workshop

There will be a 3.5 Hour “Youth Lead” workshop for students (Middle School-High School) and adult allies provided by The Search Institute.

This hands-on workshop gives middle & high school youth an opportunity to

-Explore leadership qualities that they bring to their schools and communities.

-Recognize their own leadership skills and priorities.

-Build support among their peers to take on leadership roles.

-Practice leadership skills by creating positive change in their school, organization or community.

This is a great session for those students who wish to take on an active role in Friends of Rachel, OTI, SADD and Kindness Committee Clubs.

The “Youth LEAD” workshop has a separate registration from the General PART Conference because it is a limited to 50 people.

*Those who sign up for Youth Lead workshop will also be permitted to attend the PART morning plenary (no need to register for both).* Due to limited space in the Youth Lead Workshop students are welcomed to register for the general PART Conference and attend the breakout sessions instead of the Youth Lead Workshop if they wish.

Those who attend the Youth Lead Workshop will also be permitted to have breakfast & lunch but will not follow the same schedule as the general PART Conference.

We would love to see all school districts represented in the Youth Lead Workshop, so make sure interested students register ASAP, we expect this workshop to fill up fast.
