

## ***Amish Taxi Drivers***

### ***Preventative Measures against Novel Coronavirus***

- **Ventilate your vehicle by rolling windows down.**
- **Ideally, transport 2-3 individuals in your van at a time with 3-4 feet distance between each individual.**
- **Wipe down all surface areas after each trip after occupants leave your vehicle. Use solution of 1 part bleach to 10 parts water.**
- **Check temperatures before putting riders in your van. Anyone with a temperature of 100.0°F and above, do not put in your vehicle.**
