

Ashtabula County Health Department Mission Statement

To promote and protect the health and wellbeing of the residents of the Ashtabula County Health District by reducing preventable illness and controlling the spread of communicable diseases. The Ashtabula County Health Department carries out its mission by providing programs and services in communicable disease prevention, chronic disease prevention, health promotion, immunizations, environmental health and health education. The public health services of the Ashtabula County Health Department are a blend of education and enforcement services designed to protect public health in the Ashtabula County Health District.
